Foreword 4

Introduction 5

1 Scope 6

2 Normative references 6

3 Terms and definitions 7

4 General requirements for design, analysis and examination 8
4.1 Design documents 8
4.2 Description of construction and operation 8
4.3 Construction drawings 8

5 Principles of numerical analysis 8
5.1 Verification 8
5.2 Selection of textile materials 9

6 Design actions 10
6.1 General 10
6.2 Permanent actions 10
6.3 Conventional load 10
6.4 Variable actions 10
6.5 Seismic forces 15
6.6 Load combinations 15

7 Verification of stability and equilibrium 16
7.1 General 16
7.2 Verification against overturning, sliding and lifting 17
7.3 Dead load for tent covers 19
7.4 Structures with primary load bearing structure (i.e. roof, truss, tents) 19
7.5 Membrane 19
7.6 Verification of load bearing capacity of technical textiles and their connections 20
7.7 Safety margin, safeguards 21
7.8 Post tensioning 21

8 Ground anchorages 22
8.1 General 22
8.2 Load bearing capacity of weight anchors 22
8.3 Load bearing capacity of rod anchors 22
8.4 Testing of anchors 25

9 Other structural components 25
9.1 Cables, ropes, chains, safety devices 25
9.2 Accessories 27
9.3 Ratchets 27
9.4 Detail connections 27

10 Special design and manufacture criteria 27

11 Manufacture and supply 27

11.1 General ... 27
11.2 Certificates ... 28
11.3 Observation of the design specification ... 28
11.4 Description of installation and operation procedures ... 28

12 Examination ... 28
12.1 General ... 28
12.2 Qualification ... 28
12.3 Competence ... 29

13 Procedures for approval, examination and tests ... 29
13.1 General ... 29
13.2 Identification ... 29
13.3 Initial approval of tents ... 29
13.4 Inspection after repair, modification and accidents ... 30
13.5 Report ... 30

14 Tent book ... 30
14.1 General ... 30
14.2 Content ... 30

15 Use and operation ... 31

Annex A (informative) Burning behaviour ... 32

Annex B (informative) Aerodynamic coefficients for round shape tents ... 36

Annex C (informative) Special design and manufacture criteria ... 37

C.1 Access to and egress from enclosures, shows and others ... 37
C.2 Burning behaviour ... 37
C.3 Connection and weldings ... 37

Annex D (informative) Use and operation ... 39

D.1 Periodic thorough examination ... 39
D.2 Installation examination ... 39
D.3 Escape routes ... 40
D.4 Stairs ... 40
D.5 Heating and cooking systems ... 40
D.6 Electrical fittings ... 41
D.7 Fire extinguishers ... 41

Bibliography ... 42
