Foreword iv

Introduction v

1 Scope 1

2 Conformance 1

3 Normative references 1

4 Terms and definitions 2

5 Symbols, abbreviations and UML notations 6
5.1 Symbols and abbreviated terms 6
5.2 UML Notations 7
5.3 UML model stereotypes 7
5.4 Package abbreviations 8

6 Positioning services model 8
6.1 Introduction 8
6.2 Static data structures of positioning services classes 9
6.3 Positioning services operations 10
6.4 Basic and Extended Information 13

7 Basic information definition and description 14
7.1 Introduction 14
7.2 System Information 15
7.3 Session 19
7.4 Mode of operation 20
7.5 Quality information 35

8 Technology-specific information 38
8.1 Introduction 38
8.2 GNSS Operating Conditions 38
8.3 Raw measurement data 43

Annex A (normative) Conformance 44

Annex B (informative) Implementing accuracy reports for positioning services 47
