

# DIN EN 14509:2007-02 (E)

## Self-supporting double skin metal faced insulating panels - Factory made products - Specifications

---

<b>Contents</b>		<b>Page</b>
Foreword .....		4
1	Scope .....	5
2	Normative references .....	5
3	Terms and definitions .....	8
4	Symbols and abbreviations .....	9
5	Requirements, properties and test methods .....	12
5.1	Requirements for component materials .....	12
5.2	Properties of panels .....	14
5.3	Actions and safety level requirements .....	20
6	Evaluation of conformity, testing, assessment and sampling methods .....	21
6.1	General .....	21
6.2	Type testing - ITT .....	21
6.3	Factory Production Control (FPC) .....	25
7	Classification and designation .....	31
8	Marking, labelling and packaging .....	32
8.1	Marking and labelling .....	32
8.2	Packaging, transport, storage and handling .....	33
Annex A (normative)	Testing procedures for material properties .....	34
A.1	Cross panel tensile test .....	34
A.2	Compressive strength and modulus of the core material .....	37
A.3	Shear test on the core material .....	38
A.4	Test to determine the shear properties of a complete panel .....	43
A.5	Test to determine the bending moment capacity and stiffness of a simply supported panel .....	45
A.6	Determination of the creep coefficient (t) .....	53
A.7	Interaction between bending moment and support force .....	55
A.8	Determination of apparent core density and mass of panel .....	57
A.9	Test for resistance to point loads and repeated loads .....	59
A.10	Calculation method for the determination of the thermal transmittance of a panel (U) .....	60
A.11	Water permeability - resistance to driving rain under pulsating pressure .....	65
A.12	Air permeability .....	66
A.13	Airborne sound insulation .....	66
A.14	Sound absorption .....	67
A.15	Support reaction capacity at the end of a panel .....	67
A.16	Recording and interpretation of test results .....	70
Annex B (normative)	Durability testing method for sandwich panels .....	72
B.1	Principle .....	72
B.2	Test DUR1 .....	72
B.3	Test DUR2 .....	74

B.4	Test report on durability tests .....	77
B.5	Adhesive bond between faces and prefabricated core material (wedge test) .....	78
B.6	Repeated loading test .....	80
B.7	Thermal shock test .....	81
<b>Annex C (normative) Fire performance tests - additional instructions and direct field of application</b>		<b>83</b>
C.1	Reaction to fire .....	83
C.2	Fire resistance .....	89
C.3	Fire tests ENV 1187 - external fire performance for roofs .....	92
C.4	Determination of the amount and thickness of the adhesive layer .....	93
<b>Annex D (normative) Dimensional tolerances</b>		<b>96</b>
D.1	General .....	96
D.2	Dimensional tolerances .....	96
<b>Annex E (normative) Design procedures</b>		<b>106</b>
E.1	Definitions and symbols .....	106
E.2	General .....	108
E.3	Actions .....	109
E.4	Resistance .....	110
E.5	Combination rules .....	113
E.6	Combination coefficients and safety factors .....	116
E.7	Calculation of the effects of actions .....	118
<b>Annex ZA (informative) Clauses of this European Standard addressing the provisions of the EU Construction Products Directive</b>		<b>127</b>
ZA.1	Scope and relevant characteristics .....	127
ZA.2	Procedures for the attestation of conformity of sandwich panels .....	129
ZA.3	CE Marking and labelling .....	134
<b>Bibliography</b>		<b>147</b>
