ISO 9276-5:2005-08 (E)

Representation of results of particle size analysis - Part 5: Methods of calculation relating to particle size analyses using logarithmic normal probability distribution

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Symbols 1

4 Logarithmic normal probability function 2

5 Special values of a logarithmic normal probability distribution 5
5.1 Complete kth moments 5
5.2 Average particle sizes 5
5.3 Median particle sizes 6
5.4 Horizontal shifts between plotted distribution values 6
5.5 Volume-specific surface area (Sauter diameter) 8

Annex A (informative) Cumulative distribution values of a normal probability distribution 9
