Representation of results of particle size analysis - Part 5: Methods of calculation relating to particle size analyses using logarithmic normal probability distribution

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Symbols	1
4	Logarithmic normal probability function	2
5	Special values of a logarithmic normal probability distribution	5
5.1	Complete kth moments	5
5.2	Average particle sizes	5
5.3	Median particle sizes	6
5.4	Horizontal shifts between plotted distribution values	6
5.5	Volume-specific surface area (Sauter diameter)	8
Annex A (informative) Cumulative distribution values of a normal probability distribution		9
Bibliography		12
