DIN EN 196-10:2006-10 (E)

Methods of testing cement - Part 10: Determination of the water-soluble chromium (VI) content of cement

Contents

Page

Foreword 4

1 Scope 6

2 Normative references 6

3 General requirements for testing 7
3.1 Number of tests 7
3.2 Repeatability and reproducibility 7
3.3 Expression of masses, volumes, factors and results 7
3.4 Blank determinations 7

4 Reagents 8

5 Apparatus 8

6 Preparation of a test sample of cement 10

7 Extraction procedure 10
7.1 Principle 10
7.2 Preparation of mortar 10
7.3 Filtration 11

8 Determination of chromium (VI) 11
8.1 General 11
8.2 Measurement of absorbance without oxidation 12
8.3 Measurement of absorbance with oxidation 12

9 Calculation and expression of results 13
9.1 Calculation 13
9.2 Expression of results 14

10 Reporting of results 14

11 Repeatability and reproducibility 14

Annex A (normative) Evaluation of the compliance of cement with the regulatory limit in Directive 2003/53/EC on water-soluble hexavalent chromium content 15

Foreword 15

A.1 Scope 16
A.2 Normative references 16
A.3 Terms and definitions 16
A.4 Factory production control by the manufacturer 17
A.5 Tasks for the verification body 19
A.6 Compliance criteria 22
A.7 Compliance assessment 22
A.8 Actions in the event of non-compliance 24
A.9 Requirements for dispatching centres 25

Annex B (informative) Guidance on the application of this European Standard to the determination of the water soluble chromium (VI) content of cement-containing preparations 26

B.1 Background 26
B.2 Extraction procedure 26
B.3 Filtration procedure 27
B.4 Calculation and reporting of results 27
B.5 Evaluation of compliance 27

Annex C (informative) Guidance on screening test method (1) using paste extraction - method based on DS 1020 28

C.1 Object and field of application 28
C.2 Principle 28
C.3 Reagents 28
C.4 Apparatus 29
C.5 Procedure 29
C.6 Calculation of results 30
C.7 Reporting result 30
C.8 Precision and accuracy 30
C.9 Report 30

Annex D (informative) Guidance on screening test method (2) using paste extraction - method based on TRGS 613 31

D.1 Significance and use 31
D.2 Basic principles of the method 31
D.3 Apparatus 31
D.4 Materials 32
D.5 Construction of a calibration curve 32
D.6 Sample preparation and analysis 33
D.7 Evaluation and Interpretation 33
D.8 Health and safety 34

Annex E (informative) Guidance on the photometric determination of chromium reduction capacity in cements 35

Foreword 35

E.1 Summary 35
E.2 Scope 35
E.3 Apparatus 35
E.4 Reagents 36
E.5 Procedure 37
E.6 Calculations 37
E.7 Result 38
E.8 Control of instrument 38
