Foreword 3

Introduction 4

1 Scope 7

2 Conformance 7

3 Normative references 7

4 Terms and definitions 8

5 Symbols, abbreviations and UML notations 12
5.1 Symbols and abbreviated terms 12
5.2 UML Notations 13
5.3 UML model stereotypes 13
5.4 Package abbreviations 14

6 Positioning services model 14
6.1 Introduction 14
6.2 Static data structures of positioning services classes 15
6.3 Positioning services operations 16
6.4 Basic and Extended Information 19

7 Basic information definition and description 20
7.1 Introduction 20
7.2 System Information 21
7.3 Session 25
7.4 Mode of operation 26
7.5 Quality information 41

8 Technology-specific information 44
8.1 Introduction 44
8.2 GNSS Operating Conditions 44
8.3 Raw measurement data 49

Annex A (normative) **Conformance** 50

Annex B (informative) **Implementing accuracy reports for positioning services** 53
