## Fire safety engineering - Requirements governing algebraic equations - Vent flows

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1 <b>Scope</b> .....		1
2 <b>Normative references</b> .....		1
3 <b>Terms and definitions</b> .....		1
4 <b>Requirements governing description of physical phenomena</b> .....		2
5 <b>Requirements governing documentation</b> .....		2
6 <b>Requirements governing limitations</b> .....		2
7 <b>Requirements governing input parameters</b> .....		2
8 <b>Requirements governing domain of applicability</b> .....		3
<b>Annex A (informative) General aspects of vent flows</b> .....		4
<b>Annex B (informative) Specific equations for vent flows meeting the requirements of Annex A</b> .....		9
<b>Bibliography</b> .....		23
