Foreword 6

Introduction 8

1 Scope 9

2 Normative references 11

3 Terms, definitions and units 13
3.1 Terms and definitions 13
3.2 Symbols, units and subscripts 18

4.3 Calculation methods 23
4.3.1 Ventilation heat sinks 23
4.3.2 Heat losses, heat gains, auxiliary energy and generator heat output 25
4.3.3 Heat generation with combined heating 27

5 Energy need for heating 29
5.1 Supply air temperature V,mech 29
5.1.1 Exhaust ventilation systems 29
5.1.1.1 Exhaust ventilation systems without heat recovery 29
5.1.1.2 Extract air/water heat pump 30
5.1.2 Supply and exhaust ventilation systems 30
5.1.2.1 Supply and exhaust ventilation systems without heat recovery 30
5.1.2.2 Extract air/supply air heat exchangers 30
5.1.2.3 Extract air/supply air heat pumps 33
5.1.2.4 Extract air/water heat pumps 33
5.1.2.5 Extract air/supply air/water heat pumps 34
5.1.3 Air heating systems 34
5.2 Mean ventilation system-driven air change rate nmech 34
5.2.1 Exhaust ventilation systems 34
5.2.2 Supply and exhaust ventilation systems 35
5.2.3 Air heating systems 36

6 Control and emission 37
6.1 General 37
6.2 Heat losses Qrv,ce 37
6.3 Auxiliary energy Qrv,ce,aux 40

7 Distribution 41
7.1 General 41
7.2 Heat losses Qrv,d and uncontrolled heat gains Ql,rv,d 41
7.3 Auxiliary energy Qrv,d,aux 45

8 Storage 46
8.1 General 46
8.2 Heat losses Qrv,s and uncontrolled heat gains Ql,rv,s 46
8.3 Auxiliary energy Qrv,s,aux 48

9 Generation ... 48
9.1 General ... 48
9.2 Heat losses Qrv,g and uncontrolled heat gains Ql,rv,g ... 49
9.3 Auxiliary energy Qrv,g,aux ... 51

-- Prestandard -- 9.4 Generator heat output Qrv,outg ... 57
9.4.1 Exhaust ventilation systems ... 57
9.4.1.1 Without heat recovery ... 57
9.4.1.2 Extract air/water heat pump ... 57
9.4.2 Supply and exhaust ventilation systems ... 62
9.4.2.1 Supply and exhaust ventilation systems without heat recovery ... 62
9.4.2.2 Extract air/supply air heat exchangers ... 63
9.4.2.3 Extract air/supply air heat pumps ... 63
9.4.2.4 Extract air/water heat pump ... 68
9.4.2.5 Extract air/supply air/water heat pump ... 72
9.4.3 Air heating systems ... 73
9.5 Heat input Qrv,reg due to heat recovered from extract air ... 75
9.5.1 Exhaust ventilation systems ... 75
9.5.1.1 Exhaust ventilation systems without heat recovery ... 75
9.5.1.2 Extract air/water heat pump ... 75
9.5.2 Supply and exhaust ventilation systems ... 76
9.5.2.1 Supply and exhaust ventilation systems without heat recovery ... 76
9.5.2.2 Extract air/supply air heat exchangers ... 76
9.5.2.3 Extract air/supply air heat pump ... 77
9.5.2.4 Extract air/water heat pump ... 77
9.5.2.5 Extract air/supply air/water heat pump ... 79
9.5.3 Air heating systems ... 79

Annex A (normative) Ventilation systems ... 80

A.1 Exhaust ventilation systems ... 80
A.1.1 Exhaust ventilation systems without heat recovery ... 80
A.1.2 Exhaust ventilation systems with extract air/water heat pump ... 82
A.2 Supply and exhaust ventilation systems ... 83
A.2.1 Supply and exhaust ventilation systems without heat recovery ... 83
A.2.2 Supply and exhaust ventilation systems with extract air/supply air heat exchanger ... 84
A.2.3 Supply and exhaust ventilation systems with extract air/supply air heat pump, with and without heat exchanger ... 86
A.2.4 Supply and exhaust ventilation systems with extract air/water heat pump and with heat exchanger ... 87
A.2.5 Supply and exhaust ventilation systems with extract air/supply air/water heat pump and heat exchanger ... 88
A.3 Air heating systems ... 89
A.3.1 With extract air/supply air heat pump, with and without heat exchanger, without recirculation ... 89
A.3.2 With heat exchanger, with recirculation ... 90
