

# DIN V 18599-9:2007-02 (E)

## Energy efficiency of buildings - Calculation of the net, final and primary energy demand for heating, cooling, ventilation, domestic hot water and lighting - Part 9: Final and primary energy demand of combined heat and power plants

---

Contents	Page
Foreword .....	3
Introduction .....	5
1 Scope .....	5
2 Normative references .....	7
3 Terms and definitions, symbols and units .....	8
3.1 Terms and definitions .....	8
5 Principles .....	11
6 Calculation .....	13
Annex A (informative) Calculation example .....	14
A.1 General information .....	14
A.2 Calculation according to Alternative 1 (see equations (7) and (8)) .....	14
A.3 Calculation according to Alternative 2 (see equation (9)) .....	15
Bibliography .....	16
Figures Figure 3 -- Subscript system .....	10
Figure 4 -- Balancing procedure .....	12
Tables Table 1 -- Symbols .....	9
Table 2 -- Subscripts .....	9
