Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 Standard laboratory procedure for the determination of volatile organic compound emissions from cellular plastic products 3
4.1 General 3
4.2 Apparatus and equipment 3
4.3 Test procedure 5
4.4 Estimation of indoor air concentrations 7
4.5 Test report 9
4.6 Assessment of acceptability of the material 9
4.7 Accuracy 9

5 Test method for air permeance of spray-applied polyurethane foam 10
5.1 General 10
5.2 Number of samples 10
5.3 Apparatus (see Figure 2) 10
5.4 Test procedure for air permeance of spray-applied polyurethane foam 12
5.5 Test procedure for control 16
5.6 Test report 17
