DIN EN 10245-1:2012-01 (E)

Steel wire and wire products - Organic coatings on steel wire - Part 1: General rules

Contents

Page

Foreword 4

Introduction 5

1 Scope 5

2 Normative references 6

3 Terms and definitions 7

4 Requirements and testing methods for the organic coating material 9
4.1 General 9
4.2 Requirements 9
4.2.1 Composition 9
4.2.2 Colour 10
4.2.3 Apparent density 10
4.2.4 Hardness 10
4.2.5 Tensile strength and elongation 10
4.2.6 Shelf life 10
4.2.7 The melt flow characteristics (extrusion index) 10
4.3 Test methods for organic coating materials as supplied by the manufacturer 11
4.3.1 General 11
4.3.2 Colour 11
4.3.3 Density 11
4.3.4 Method for determining Shore Hardness of organic coating material 11
4.3.5 Method for determining the tensile strength and elongation 12

5 Requirements and testing methods for the organic coating on wire 12
5.1 General 12
5.2 Requirements 12
5.2.1 Appearance of organic coating 12
5.2.2 Colour 12
5.2.3 Gloss 12
5.2.4 Thickness of organic coating 12
5.2.5 Adherence of organic coating 12
5.2.6 Resistance to impact (mechanical shock) 12
5.2.7 Spark testing 12
5.3 Testing methods 13
5.3.1 Appearance of the organic coating 13
5.3.2 Colour 13
5.3.3 Gloss 13
5.3.4 Thickness of the organic coating 13
5.3.5 Adherence test 14
5.3.6 Impact resistance (mechanical shock) 15
5.3.7 Spark test 15

6 Performance tests for the organic coating 15
6.1 General 15
6.2 Performance requirements 15
6.2.1 General 15
6.2.2 Accelerated exposure test to artificial light (resistance to weathering) 16
6.2.3 Accelerated exposure to salt spray 16

6.2.4 Accelerated exposure to humidity 16
6.2.5 Accelerated exposure to humid atmospheres containing levels of sulphur dioxide 16
6.2.6 Resistance to natural weathering (long term) 16
6.3 Performance testing 16
6.3.1 General 16
6.3.2 Test for accelerated artificial light exposure 16
6.3.3 Accelerated test for exposure to salt spray 17
6.3.4 Accelerated exposure test for resistance to humidity 17
6.3.5 Accelerated exposure test for resistance to sulphur dioxide in a humid atmosphere 17
6.3.6 Long term natural weathering test 17

7 Retests 17

8 Inspection and Quality assurance 17
