Dentistry - Guidance on colour measurement

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Visual and instrumental colour assessment	3
4.1 Devices	3
4.2 Setting	3
5 Observers	5
5.1 Evaluation of colour competency of candidate for observer in studies on acceptability or perceptibility in dentistry	5
5.2 Guidelines for observer selected for acceptability or perceptibility evaluation in dentistry	5
6 Testing of acceptability and perceptibility thresholds	6
6.1 Materials to be tested for perceptibility and acceptability thresholds	6
6.2 Test methods	6
7 Application and interpretation	6
7.1 Colour compatibility	6
7.2 Colour stability	7
7.3 Colour interactions	7
8 Reporting of colour and colour difference assessment	7
8.1 Illuminant	8
8.2 Object	8
8.3 Observer/Instrument	8
