

# DIN EN ISO 3665:2013-07 (E)

## Photography - Intra-oral dental radiographic film and film packets - Manufacturer specifications (ISO 3665:2011)

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
1	Scope .....	4
2	Normative references .....	4
3	Terms and definitions .....	4
4	Film and packet classifications .....	5
4.1	Film speed groups .....	5
4.2	Film size numbers .....	5
4.3	Packet dimensions .....	5
5	Requirements .....	6
5.1	Symbols .....	6
5.2	Film requirements .....	6
5.2.1	Film type .....	6
5.2.2	Film corner dimensions .....	6
5.2.3	Film thickness .....	7
5.2.4	Film safelight sensitivity .....	7
5.2.5	Film identification of the radiation side of the processed film .....	8
5.2.6	Sensitometric properties of the film .....	8
5.2.7	Base plus fog density at the point of manufacture .....	8
5.2.8	Film expiry date .....	8
5.3	Packet requirements .....	8
5.3.1	General .....	8
5.3.2	Packet width and length .....	9
5.3.3	Packet thickness .....	9
5.3.4	Moisture protection .....	9
6	Sampling, inspection and testing .....	9
6.1	Sampling .....	9
6.2	Inspection .....	9
6.3	Testing .....	9
6.3.1	Base plus fog density, film speed and average gradient .....	9
6.3.2	Size numbers .....	9
6.3.3	Squareness and edge straightness .....	10
6.3.4	Uniformity .....	10
6.3.5	Safelight sensitivity .....	10
6.3.6	Film packets and lead foil dimensions .....	10
7	Marking and instructions for use .....	10
7.1	Data on packet .....	10
7.2	Data on package .....	11
7.3	Instructions for use .....	12
7.4	Compliance .....	12
