## Dentistry - Test methods for dental unit waterline biofilm treatment

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | iv          |
| <b>1</b>        | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>   | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>  | <b>1</b>    |
| <b>4</b>        | <b>Treatment methods .....</b>  | <b>3</b>    |
| <b>5</b>        | <b>Test water and bacterial challenge suspensions .....</b>   | <b>3</b>    |
| 5.1             | Test water .....  | 3           |
| 5.1.1           | Reagents .....  | 3           |
| 5.1.2           | Preparation of hardness stock solution 1 .....  | 3           |
| 5.1.3           | Preparation of hardness stock solution 2 .....  | 3           |
| 5.1.4           | Preparation of test water prior to inoculation .....  | 3           |
| 5.2             | Bacterial challenge .....   | 4           |
| 5.3             | Inoculated test water .....   | 4           |
| <b>6</b>        | <b>Test apparatus .....</b>   | <b>4</b>    |
| 6.1             | Test apparatus design .....   | 5           |
| 6.1.1           | General .....   | 5           |
| 6.1.2           | Considerations specific to antimicrobial materials and materials which prevent microbial<br>adhesion .....          | 6           |
| 6.2             | Test apparatus operation .....  | 6           |
| 6.2.1           | Flow rates .....  | 6           |
| 6.2.2           | Flow patterns (on-off cycles) .....   | 6           |
| 6.2.3           | Test environment temperature and preconditioning period .....   | 7           |
| <b>7</b>        | <b>Test procedures .....</b>  | <b>7</b>    |
| 7.1             | Testing sequence .....  | 7           |
| 7.2             | Biofilm prevention or inhibition .....  | 7           |
| 7.2.1           | General .....   | 7           |
| 7.2.2           | Pretreatment of the test apparatuses .....  | 8           |
| 7.2.3           | Concurrent exposure to inoculated test water and the treatment method for biofilm<br>prevention or inhibition ..... | 8           |
| 7.2.4           | Microbiological sampling and testing .....  | 8           |
| 7.2.5           | Test duration .....   | 8           |
| 7.2.6           | Analysis of results .....   | 9           |
| 7.3             | Biofilm removal .....   | 9           |
| 7.3.1           | General .....   | 9           |
| 7.3.2           | Initial microbiological sampling and testing .....  | 9           |
| 7.3.3           | Application of the biofilm removal treatment method .....   | 10          |
| 7.3.4           | Final microbiological sampling and testing .....  | 10          |
| 7.3.5           | Analysis of results .....   | 10          |
| <b>8</b>        | <b>Microbiological sampling and testing .....</b>   | <b>11</b>   |
| 8.1             | Enumeration of bacteria levels in procedural water .....  | 11          |
| 8.1.1           | Sampling .....  | 11          |
| 8.1.2           | Total viable count test procedure .....   | 11          |
| 8.1.3           | Alternative total viable count test procedure .....   | 11          |
| 8.2             | Biofilm on waterline surfaces .....   | 12          |

|       |   |    |
|-------|---|----|
| 8.2.1 | Sampling .....                          | 12 |
| 8.2.2 | Biofilm assessment test procedure ..... | 12 |
| 9     | Test Report .....                       | 13 |
|       | Bibliography .....                      | 14 |
