## Dentistry - Stationary dental units and dental patient chairs - Part 2: Air, water, suction and wastewater systems

---

| <b>Contents</b> |  | <b>Page</b> |
|-----------------|--|-------------|
| Foreword .....  |  | v           |
| 1               | Scope .....  | 1           |
| 2               | Normative references .....   | 1           |
| 3               | Terms and definitions .....  | 2           |
| 4               | Classification .....   | 4           |
| 4.1             | Classification of suction systems .....  | 4           |
| 4.2             | Classification of suction air flow rate .....  | 4           |
| 5               | Requirements .....   | 4           |
| 5.1             | Connections from the stationary dental unit to dental handpieces .....                                       | 4           |
| 5.1.1           | General .....  | 4           |
| 5.1.2           | Powered scaler .....   | 4           |
| 5.1.3           | Multifunction handpiece .....  | 5           |
| 5.1.4           | Handpiece and motor .....  | 5           |
| 5.1.5           | Powder jet handpiece .....   | 5           |
| 5.1.6           | Simultaneous use of more than one dental handpiece .....   | 6           |
| 5.2             | Supply connections to the stationary dental unit .....   | 6           |
| 5.3             | Water and wastewater systems .....   | 8           |
| 5.3.1           | General .....  | 8           |
| 5.3.2           | Incoming water .....   | 8           |
| 5.3.3           | Materials used for construction of procedural water systems within the stationary dental unit .....          | 8           |
| 5.3.4           | Backflow prevention device for stationary dental units connected to the external drinking water supply ..... | 9           |
| 5.3.5           | Cuspidors .....  | 9           |
| 5.3.6           | Water venturi .....  | 9           |
| 5.3.7           | Particle filter .....  | 9           |
| 5.3.8           | Bacterial filter .....   | 9           |
| 5.3.9           | Bottled water system supplying procedural water or solution .....  | 9           |
| 5.3.10          | Retraction .....   | 9           |
| 5.3.11          | Treatment method for biofilm .....   | 10          |
| 5.3.12          | Water sampling connection point .....  | 10          |
| 5.3.13          | Wastewater drain connection .....  | 11          |
| 5.4             | Air system .....   | 11          |
| 5.4.1           | General .....  | 11          |
| 5.4.2           | Incoming dental air .....  | 11          |
| 5.4.3           | Particle filters .....   | 11          |
| 5.4.4           | Bacterial filters .....  | 11          |
| 5.5             | Stationary dental unit suction systems .....   | 12          |
| 5.5.1           | General .....  | 12          |
| 5.5.2           | Maximum suction pressure .....   | 12          |
| 5.5.3           | Suction pressure head loss .....   | 12          |
| 5.5.4           | Configuration of cannula connectors and cannula .....  | 12          |
| 5.5.5           | Operating hoses with cannula connectors .....  | 14          |
| 5.5.6           | Solids filter .....  | 14          |
| 5.5.7           | Air separator .....  | 14          |
| 5.5.8           | Stationary dental unit suction source connection point .....   | 14          |

|                       |  |    |
|-----------------------|--|----|
| 5.6                   | Test report .....  | 14 |
| 6                     | Sampling .....   | 14 |
| 7                     | Measurement and test methods .....   | 14 |
| 7.1                   | Visual inspection .....  | 14 |
| 7.1.1                 | Visual inspection of device .....  | 14 |
| 7.1.2                 | Visual inspection of documentation or test reports .....                                     | 14 |
| 7.2                   | Dental handpiece connection test .....   | 15 |
| 7.2.1                 | Apparatus .....  | 15 |
| 7.2.2                 | Procedure .....  | 15 |
| 7.3                   | Systems directly connected to external drinking water supply test .....                      | 17 |
| 7.4                   | Cuspidor test .....  | 17 |
| 7.5                   | Particle filter test .....   | 17 |
| 7.6                   | Retraction test .....  | 17 |
| 7.7                   | Stationary dental unit suction systems test .....  | 18 |
| 7.7.1                 | General .....  | 18 |
| 7.7.2                 | Static suction pressure test .....   | 18 |
| 7.7.3                 | Suction pressure head loss test .....  | 19 |
| 7.8                   | Treatment method for the prevention or inhibition of biofilm formation .....                 | 20 |
| 7.9                   | Treatment method for biofilm removal .....   | 20 |
| 8                     | Instructions for use .....   | 20 |
| 9                     | Technical description .....  | 21 |
| Annex A (informative) | Example of schematic diagram of components and connections in a stationary dental unit ..... | 23 |
| Annex B (informative) | Dental handpiece connection test jig .....   | 25 |
| Annex C (informative) | Test sequence .....  | 26 |
| Bibliography          | .....  | 31 |
