|---------------------|---|-------------|
| <b>Foreword</b>     |   | <b>iv</b>   |
| <b>Introduction</b> |   | <b>v</b>    |
| <b>1</b>            | <b>Scope</b>                                    | <b>1</b>    |
| <b>2</b>            | <b>Normative references</b>                     | <b>1</b>    |
| <b>3</b>            | <b>Terms and definitions</b>                    | <b>1</b>    |
| 3.1                 | Artificial intelligence (AI) and its components | 1           |
| 3.2                 | Machine learning techniques                     | 2           |
| 3.3                 | Data processing and privacy                     | 2           |
| 3.4                 | Data annotation and labelling                   | 3           |
| 3.5                 | Dataset management                              | 3           |
| 3.6                 | Assessment and evaluation                       | 4           |
| <b>4</b>            | <b>Abbreviated terms</b>                        | <b>4</b>    |
| <b>5</b>            | <b>General</b>                                  | <b>4</b>    |
| <b>6</b>            | <b>Requirements</b>                             | <b>4</b>    |
| 6.1                 | Data  | 4           |
| 6.1.1               | Quantity, scope and handling of data            | 4           |
| 6.1.2               | Quality control                                 | 5           |
| 6.1.3               | Factors for the bias analysis                   | 5           |
| 6.1.4               | Input (training, testing and validation) data   | 5           |
| 6.1.5               | Data validation                                 | 5           |
| 6.1.6               | Data protection                                 | 5           |
| 6.1.7               | Data protection control                         | 5           |
| 6.2                 | Data annotation (labelling)                     | 6           |
| 6.2.1               | Annotation strategy                             | 6           |
| 6.2.2               | Annotation procedure                            | 6           |
| 6.2.3               | Competence                                      | 6           |
| 6.3                 | Data pre-processing                             | 6           |
| 6.3.1               | Pre-processing the data                         | 6           |
| 6.3.2               | Risks of data processing                        | 6           |
| 6.4                 | Data post-processing                            | 6           |
| <b>7</b>            | <b>Test method</b>                              | <b>6</b>    |
| 7.1                 | General   | 6           |
| 7.2                 | Data  | 7           |
| 7.2.1               | Quantity and scope                              | 7           |
| 7.2.2               | Inclusion and exclusion criteria                | 7           |
| 7.2.3               | Quality control                                 | 7           |
| 7.2.4               | Factors for the bias analysis                   | 7           |
| 7.2.5               | Input data                                      | 8           |
| 7.2.6               | Data validation                                 | 8           |
| 7.2.7               | Data protection                                 | 9           |
| 7.2.8               | Data protection control                         | 9           |
| 7.3                 | Data annotation (labelling)                     | 10          |
| 7.3.1               | Annotation strategy                             | 10          |
| 7.3.2               | Annotation procedure                            | 10          |
| 7.3.3               | Competence                                      | 10          |

|          |   |           |
|----------|---|-----------|
| 7.4      | Data pre-processing.....                    | 11        |
| 7.4.1    | General.....                                | 11        |
| 7.4.2    | Risks of data processing.....               | 11        |
| <b>8</b> | <b>Test report.....</b>                     | <b>11</b> |
| <b>9</b> | <b>Electronic instructions for use.....</b> | <b>12</b> |
|          | <b>Bibliography.....</b>                    | <b>13</b> |
