Foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 5

4 Symbols and abbreviations ... 5

5 Usage limitations – Requirement for a special issuer code ... 6

6 Value range limitations ... 6

7 Encoding specification ... 7
7.1 Data to be encoded ... 7
7.2 Data field encoding table ... 9
7.3 Calculation of the error detection and correction bits ... 10
7.4 ECC field encoding table ... 11
7.5 Construction of the bar code to be printed on the item ... 12

8 Printing of the bar code ... 13
8.1 Optical characteristics of the ink ... 13
8.2 Bar code characteristics ... 14

9 Reading and interpretation of BNB-78 bar codes ... 16
9.1 Discrimination from other bar codes ... 16
9.2 Fully read bar codes ... 16
9.3 Partially read bar codes ... 16
9.4 Checking data field values ... 16
9.5 Manual interpretation of bar codes ... 17

10 Conversion to the message and binary representations ... 17

Annex A (informative) **Error detection and correction algorithms** ... 19
A.1 Introduction ... 19
A.2 Calculation of error control groups ... 19
A.3 Checking the read value for errors ... 19
A.4 Correcting an erroneous bar code ... 20
A.5 Pre-processing ... 21

Annex B (informative) **S18 ID-tag 78-position BNB bar code template** ... 23

Bibliography ... 25
