

ISO 18725:2024-06 (E)

Tourism and related services - Yacht harbours and dry stacks - Requirements for clean harbours and active biodiversity harbours

Contents		Page
Foreword		iv
Introduction		v
1 Scope		1
2 Normative references		1
3 Terms and definitions		1
4 Clean harbour policy statement		3
5 Implementation of a clean harbour strategic approach		3
5.1 Diagnostic study.....		3
5.2 Implementation of operational criteria.....		4
5.2.1 General.....		4
5.2.2 Pollution and waste treatment.....		4
5.2.3 Sanitary facilities (showers and toilets, sinks, unloading of chemical toilets).....		5
5.2.4 Accidental pollution.....		5
5.2.5 Water and energy resources.....		6
5.3 Training, information, user awareness and responsiveness to users.....		6
5.3.1 Training and awareness of yacht harbour personnel.....		6
5.3.2 User information/awareness and feedback handling.....		7
6 Strategic approach management		7
7 Optional suite: active biodiversity harbours		8
7.1 Approach to biodiversity in the yacht harbour and its area of influence.....		8
7.2 Knowing the yacht harbour's environment and its area of influence.....		8
7.2.1 Compilation and analysis of existing studies.....		8
7.2.2 Choice of solution to be implemented.....		8
7.2.3 Project management.....		9
7.2.4 Communication.....		10
Annex A (informative) Examples of actions for promoting alternative sources for water and energy in yacht harbours		11
Annex B (informative) Examples of communication actions for active biodiversity yacht harbours		12
Annex C (informative) Examples of actions to preserve biodiversity in yacht harbours		13
Bibliography		14
