

DIN CEN/TS 15525:2007-02 (E)

Postal Services - Standard Interfaces - Interface between Machine Control and Bar Code Printers; English version CEN/TS 15525:2006

Inhalt	Seite
Foreword.....	4
Introduction	5
1 Scope	7
2 Normative references	8
3 Terms and definitions	9
4 Symbols and abbreviations	10
5 Overview of the interface	10
6 Data communications interface	11
7 Signalling interfaces.....	14
7.1 Physical connections	14
7.2 Print clock signal	15
7.3 PrintGo signal	16
8 Messages and their usage	17
9 Detailed message definitions	20
9.1 The message header	20
9.2 0x00: PrintData.....	21
9.3 0x01: ClearPrintData.....	33
9.4 0x10: SoftwareDownload	33
9.5 0x11: InitManufacturer	35
9.6 0x12: InitCustomer	36
9.7 0x13: LoadPattern.....	39
9.8 0x14 LoadBarCodeFormat	43
9.9 0x16: LoadFont	48
9.10 0x20: PrinterOffLine	51
9.11 0x21: PrinterOnLine.....	52
9.12 0x22: RequestTechnicalData	53
9.13 0x23: RequestSoftwareVersion	54
9.14 0x24: RequestStatus	54
9.15 0x25: ResetPrinterFaults.....	55
9.16 0x2F: TestInkJet.....	55
9.17 0x90: SoftwareUpload	56
9.18 0x91: UploadManufacturer.....	56
9.19 0x92: UploadCustomer.....	56
9.20 0x93: UploadPattern	56
9.21 0x94: UploadBarCodeFormat	57
9.22 0x95: UploadFont.....	57
9.23 0xA2: TechnicalData.....	58
9.24 0xA3: SoftwareVersion.....	58
9.25 0xA4: PrinterStatus	61
10 Message flow.....	70
10.1 Printer states and state changes	70
10.2 Printer initialisation	71
10.3 Printing	75
10.4 Requests and responses	78
10.5 Ink jet testing.....	78
11 Use of the service socket.....	79

Annex A (Normative) Timing diagrams	80
A.1 Normal timings.....	80
A.2 Double PrintData message	82
A.3 PrintGo errors	83
A.4 Print error	85
Annex B (Informative) PrintData examples.....	87
B.1 Example of a mixed bar code and text message.....	87
B.2 Example of a mixed image and text message	98
Annex C (Informative) Load Font definition	104
C.1 General	104
C.2 Message structure.....	104
Bibliography.....	110
