

DIN EN ISO 9241-410:2008-05 (E)

Ergonomics of human-system interaction - Part 410: Design criteria for physical input devices (ISO 9241-410:2008)

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	6
4 Procedure for applying this part of ISO 9241	8
5 Performance criterion	10
6 Properties of physical input devices relevant for usability	10
7 Generic design requirements for physical input devices	10
8 Device-specific design requirements	14
9 Documentation	15
Annex A (informative) Overview of the ISO 9241 series	16
Annex B (normative) Keyboards	20
Annex C (normative) Computer mice	40
Annex D (normative) Pucks	50
Annex E (normative) Joysticks	58
Annex F (normative) Trackballs	66
Annex G (normative) Touchpads	74
Annex H (normative) Tablets and overlays	81
Annex I (normative) Styli and light-pens	91
Annex J (normative) Touch-sensitive screens	97
Annex K (informative) Designing input devices to accommodate diverse users	102
Bibliography	104
