

DIN EN ISO 15535:2008-05 (E)

General requirements for establishing anthropometric databases (ISO 15535:2006)

Contents		Page
Foreword		3
Introduction		4
1	Scope	4
2	Normative references	5
3	Terms and definitions	5
4	Data collection design	6
4.1	General	6
4.2	Definitions, techniques and conditions of measurement	6
4.3	Sampling techniques	6
5	Data collection requirements	6
5.1	Basic demographic description of subjects	6
5.2	Detection and treatment of measurement errors	7
5.3	Instrument accuracy	7
5.4	Sample composition	7
5.5	Sample size	8
5.6	Data-storage system	8
5.7	Type of clothing	8
5.8	Measurer training and quality control	8
6	Database format	8
7	Database contents	9
7.1	Required background data	9
7.2	Recommended background data	9
7.3	Anthropometric data	9
7.4	Complementary data	9
8	Anthropometric data sheets	9
9	Statistical processing	9
Annex A (normative)	Method for estimating the number of subjects needed on a sample	11
Annex B (normative)	Anthropometric data sheet	14
Annex C (informative)	Example of anthropometric data sheet	15
Annex D (informative)	Method of calculating decimal-notation date and age	17
Annex E (normative)	Age stratification at specified growth period	19
Annex F (normative)	Procedure for preparing data and statistics	20
Annex G (informative)	Recommended scientific and technical objectives for setting up internationally compatible databases	22

Annex H (informative) Application of measurements	23
Bibliography	24
