

ISO/TR 9241-100:2010-01 (E)

Ergonomics of human-system interaction - Part 100: Introduction to standards related to software ergonomics

Contents		Page
Foreword		iv
Introduction		vi
1	Scope	1
2	Terms and definitions	2
3	International Standards and software ergonomics	3
3.1	Benefits of standards related to software ergonomics	3
3.2	Current International Standards relating to software ergonomics	3
3.3	Usability and context of use	4
3.4	Accessibility	4
4	Software-ergonomics standards	5
4.1	General	5
4.2	Overall structure of software-ergonomics standards ISO 9241-100 to ISO 9241-199	6
4.3	Overview of standards related to software ergonomics -- ISO 9241-100	6
4.4	General standards on software ergonomics -- ISO 9241-110 to ISO 9241-119	6
4.5	Standards on input, output and interaction -- ISO 9241-120 to ISO 9241-129	7
4.6	Standards on performance support -- ISO 9241-130 to ISO 9241-139	9
4.7	Standards on interaction techniques -- ISO 9241-140 to ISO 9241-149	10
4.8	Topic-specific standards -- ISO 9241-150 to ISO 9241-159	10
4.9	Standards on user interface control components -- ISO 9241-160 to ISO 9241-169	11
4.10	Cross-topic guidance on accessibility -- ISO 9241-170 to ISO 9241-179	11
4.11	Numbers reserved for future use -- ISO 9241-180 to 189 and ISO 9241-190 to ISO 9241-199	12
5	Standards on human-centred design processes and methods relevant to software ergonomics	12
5.1	Human-centred design process for interactive systems -- ISO 9241-210	12
5.4	Common Industry Format (CIF) for usability - General framework for usability-related information -- ISO/IEC TR 25060	14
5.5	Common Industry Format (CIF) for usability test reports -- ISO/IEC 25062	15
6	General standards relevant to software ergonomics	15
6.1	Ergonomic principles in the design of work systems -- ISO 6385	15
6.2	Guidance on usability -- ISO 9241-11	15
6.3	Accessibility guidelines for information/communication technology (ICT) equipment and services -- ISO 9241-20	16
7	Other standards that include specific software-ergonomics guidance	17
7.1	Guidance on tactile and haptic interactions -- ISO 9241-920	17
7.2	Information technology -- Accessibility considerations for people with disabilities -- User needs summary -- ISO/IEC TR 29138-1	17
7.3	Ergonomics data and guidelines for the application of ISO/IEC Guide 71 to products and services to address the needs of older persons and persons with disabilities -- Annex A (informative) Overview of the ISO 9241 series	18
