

DIN EN ISO 24500:2011-02 (E)

Ergonomics - Accessible design - Auditory signals for consumer products (ISO 24500:2010)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	General aspects of auditory signals for products	7
4.1	User control of volume level	7
4.2	Repetition of caution signals	7
4.3	Fundamental frequency of auditory signals	7
4.4	Options for signal frequencies	7
4.5	Use of complex sound signals	7
4.6	Turning off auditory signals	7
5	Temporal patterns of auditory signals	7
5.1	General	7
5.2	Operation confirmation signals	8
5.3	End signals	8
5.4	Caution signals	9
