

ISO 9241-420:2011-07 (E)

Ergonomics of human-system interaction - Part 420: Selection of physical input devices

Contents		Page
Foreword		vii
Introduction		ix
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Procedures for selecting equipment -- General considerations	11
4.1	Rationale	11
4.2	Objectives for selection procedures	13
5	Performance criterion	13
6	Methods and aids for selection of devices	14
6.1	Task analysis	14
6.2	Selection based on product description	14
6.3	User tests	14
6.4	Selection based on dominant task primitive(s) with overriding importance	15
6.5	Selecting a keyboard	17
7	Field assessment of input devices	18
7.1	Rationale	18
7.2	Methods	19
Annex B (informative)	Tracing test	24
Annex C (informative)	Dragging test	26
Annex D (informative)	Assessment of comfort	28
Annex E (informative)	One-direction tapping test	32
Annex F (informative)	Multi-directional tapping test	35
Annex G (informative)	Test for mobile text entry (hand-held keyboards)	37
Annex H (normative)	Tables for selecting devices in consideration of product description	40
Annex I (informative)	Usability test for keyboards	93
Bibliography		94
Tables Annex H Table H.1 -- Correspondence with generic requirements on compact keyboards -- Appropriateness		47
Table H.2 -- Correspondence with generic requirements on compact keyboards -- Operability		47
Table H.3 -- Correspondence with generic requirements on compact keyboards -- Controllability		47

Table H.4 -- Correspondence with generic requirements on compact keyboards -- Biomechanical load	48
Table H.5 -- Functional properties of compact keyboards -- Design of keys of compact keyboards -- Design of keys	48
Table H.6 -- Functional properties of compact keyboards -- Design of keys -- Key legends	48
Table H.7 -- Functional properties of compact keyboards -- Design of keyboard -- Sections and zones	49
Table H.8 -- Functional properties of compact keyboards -- Design of keyboard -- Mechanical design	49
Table H.9 -- Other considerations for compact keyboards -- Electrical properties	50
Table H.10 -- Other considerations for compact keyboards -- Maintainability-related properties	50
Table H.11 -- Other considerations for compact keyboards -- Interdependencies	50
Table H.12 -- Other considerations for compact keyboards -- Documentation	50
Table H.13 -- Correspondence with generic requirements on full-size keyboards -- Appropriateness	51
Table H.14 -- Correspondence with generic requirements on full-size keyboards -- Operability	51
Table H.15 -- Correspondence with generic requirements on full-size keyboards -- Controllability ...	51
Table H.16 -- Correspondence with generic requirements on full-size keyboards -- Biomechanical load	52
Table H.17 -- Functional properties of full-size keyboards -- Design of keys -- Design of keys	52
Table H.18 -- Functional properties of full-size keyboards -- Design of keys -- Key legends	52
Table H.19 -- Functional properties of full-size keyboards -- Design of keyboard -- Sections and zones	53
Table H.20 -- Functional properties of full-size keyboards -- Design of keyboard -- Mechanical design	53
Table H.21 -- Other considerations for full-size keyboards -- Electrical properties	53
Table H.22 -- Other considerations for full-size keyboards -- Maintainability-related properties	54
Table H.23 -- Other considerations for full-size keyboards -- Interdependencies	54
Table H.24 -- Other considerations for full-size keyboards -- Documentation	54
Table H.25 -- Correspondence with generic requirements on mice -- Appropriateness	55
Table H.26 -- Correspondence with generic requirements on mice -- Operability	55
Table H.27 -- Correspondence with generic requirements on mice -- Controllability	55
Table H.28 -- Correspondence with generic requirements on mice -- Biomechanical load	56
Table H.29 -- Functional properties of mice -- Functional properties	56
Table H.30 -- Functional properties of mice -- Button design	56

Table H.31 -- Functional properties of mice -- Considerations of handedness	57
Table H.32 -- Functional properties of mice -- Resolution consistency	57
Table H.33 -- Other properties of mice -- Mechanical properties	57
Table H.34 -- Other properties of mice -- Electrical properties	57
Table H.35 -- Other properties of mice -- Maintainability-related properties	57
Table H.36 -- Other properties of mice -- Health- and safety-related properties	58
Table H.37 -- Interdependencies and documentation of mice -- Interdependency with software	58
Table H.38 -- Interdependencies and documentation of mice -- Interdependency with use environment	58
Table H.39 -- Interdependencies and documentation of mice -- Documentation	59
Table H.40 -- Correspondence with generic requirements on pucks -- Appropriateness	59
Table H.41 -- Correspondence with generic requirements on pucks -- Operability	60
Table H.42 -- Correspondence with generic requirements on pucks -- Controllability	60
Table H.43 -- Correspondence with generic requirements on pucks -- Biomechanical load	60
Table H.44 -- Functional properties of pucks -- Functional properties	61
Table H.45 -- Functional properties of pucks -- Button design	61
Table H.46 -- Functional properties of pucks -- Consideration of handedness	61
Table H.47 -- Functional properties of pucks -- Resolution consistency	62
Table H.48 -- Other properties of pucks -- Mechanical properties	62
Table H.49 -- Other properties of pucks -- Electrical properties	62
Table H.50 -- Other properties of pucks -- Maintainability-related properties	62
Table H.51 -- Other properties of pucks -- Health- and safety-related properties	63
Table H.52 -- Interdependencies and documentation of pucks -- Interdependency with software	63
Table H.53 -- Interdependencies and documentation of pucks -- Interdependency with use environment	63
Table H.54 -- Interdependencies and documentation of pucks -- Documentation	64
Table H.55 -- Correspondence with generic requirements on joysticks -- Appropriateness	64
Table H.56 -- Correspondence with generic requirements on joysticks -- Operability	65
Table H.57 -- Correspondence with generic requirements on joysticks -- Controllability	65
Table H.58 -- Correspondence with generic requirements on joysticks -- Biomechanical load	65
Table H.59 -- Functional properties of joysticks -- Functional properties	66
Table H.60 -- Functional properties of joysticks -- Button design	66

Table H.61 -- Functional properties of joysticks -- Consideration of handedness	66
Table H.62 -- Functional properties of joysticks -- Resolution consistency	67
Table H.63 -- Other properties of joysticks -- Mechanical properties	67
Table H.64 -- Other properties of joysticks -- Electrical properties	67
Table H.65 -- Other properties of joysticks -- Maintainability-related properties	67
Table H.66 -- Other properties of joysticks -- Health- and safety-related properties	68
Table H.67 -- Interdependencies and documentation of joysticks -- Interdependency with software .	68
Table H.68 -- Interdependencies and documentation of joysticks -- Interdependency with use environment	68
Table H.69 -- Interdependencies and documentation of joysticks -- Documentation	68
Table H.70 -- Correspondence with generic requirements on trackballs -- Appropriateness	69
Table H.71 -- Correspondence with generic requirements on trackballs -- Operability	69
Table H.72 -- Correspondence with generic requirements on trackballs -- Controllability	70
Table H.73 -- Correspondence with generic requirements on trackballs -- Biomechanical load	70
Table H.74 -- Functional properties of trackballs -- Functional properties	70
Table H.75 -- Functional properties of trackballs -- Button design	71
Table H.76 -- Functional properties of trackballs -- Consideration of handedness	71
Table H.77 -- Functional properties of trackballs -- Resolution consistency	71
Table H.78 -- Other properties of trackballs -- Mechanical properties	72
Table H.79 -- Other properties of trackballs -- Electrical properties	72
Table H.80 -- Other properties of trackballs -- Maintainability-related properties	72
Table H.81 -- Other properties of trackballs -- Health- and safety-related properties	72
Table H.82 -- Interdependencies and documentation of trackballs -- Interdependency with software	73
Table H.83 -- Interdependencies and documentation of trackballs -- Interdependency with use environment	73
Table H.84 -- Interdependencies and documentation of trackballs -- Documentation	73
Table H.85 -- Correspondence with generic requirements on touchpads -- Appropriateness	74
Table H.86 -- Correspondence with generic requirements on touchpads -- Operability	74
Table H.87 -- Correspondence with generic requirements on touchpads -- Controllability	75
Table H.88 -- Correspondence with generic requirements on touchpads -- Biomechanical load	75
Table H.89 -- Functional properties of touchpads -- Functional properties	75
Table H.90 -- Functional properties of touchpads -- Button design	76

Table H.91 -- Functional properties of touchpads -- Consideration of handedness	76
Table H.92 -- Functional properties of touchpads -- Resolution consistency	76
Table H.93 -- Other properties of touchpads -- Mechanical properties	77
Table H.94 -- Other properties of touchpads -- Electrical properties	77
Table H.95 -- Other properties of touchpads -- Maintainability-related properties	77
Table H.96 -- Other properties of touchpads -- Health- and safety-related properties	77
Table H.97 -- Interdependencies and documentation of touchpads -- Interdependency with software	78
Table H.98 -- Interdependencies and documentation of touchpads -- Interdependency with use environment	78
Table H.99 -- Interdependencies and documentation of touchpads -- Documentation	78
Table H.100 -- Correspondence with generic requirements on tablets/overlays -- Appropriateness ..	79
Table H.101 -- Correspondence with generic requirements on tablets/overlays -- Operability	79
Table H.102 -- Correspondence with generic requirements on tablets/overlays -- Controllability	80
Table H.103 -- Correspondence with generic requirements on tablets/overlays -- Biomechanical load	80
Table H.104 -- Functional properties of tablets/overlays -- Functional properties	80
Table H.105 -- Functional properties of tablets/overlays -- Button design	81
Table H.106 -- Functional properties of tablets/overlays -- Consideration of handedness	81
Table H.107 -- Functional properties of tablets/overlays -- Resolution consistency	81
Table H.108 -- Other properties of tablets/overlays -- Mechanical properties	82
Table H.109 -- Other properties of tablets/overlays -- Legibility and visibility of legends and graphical symbols	82
Table H.110 -- Other properties of tablets/overlays -- Electrical properties	83
Table H.111 -- Other properties of tablets/overlays -- Maintainability-related properties	83
Table H.112 -- Other properties of tablets/overlays -- Health- and safety-related properties	83
Table H.113 -- Interdependencies and documentation of tablets/overlays -- Interdependency with software	84
Table H.114 -- Interdependencies and documentation of tablets/overlays -- Interdependency with use environment	84
Table H.115 -- Interdependencies and documentation of tablets/overlays -- Documentation	84
Table H.116 -- Correspondence with generic requirements on styli and light pens -- Appropriateness	85
Table H.117 -- Correspondence with generic requirements on styli and light pens -- Operability	85

Table H.118 -- Correspondence with generic requirements on styli and light pens -- Controllability	85
Table H.119 -- Correspondence with generic requirements on styli and light pens -- Biomechanical load	86
Table H.120 -- Functional properties of styli and light pens -- Functional properties	86
Table H.121 -- Functional properties of styli and light pens -- Button design	87
Table H.122 -- Functional properties of styli and light pens -- Consideration of handedness	87
Table H.123 -- Functional properties of styli and light pens -- Mechanical properties	88
Table H.124 -- Other properties of styli and light pens -- Electrical properties	88
Table H.125 -- Other properties of styli and light pens -- Maintainability-related properties	88
Table H.126 -- Other properties of styli and light pens -- Health- and safety-related properties	88
Table H.127 -- Interdependencies and documentation of styli and light pens -- Interdependency with software	88
Table H.128 -- Interdependencies and documentation of styli and light pens -- Interdependency with use environment	89
Table H.129 -- Interdependencies and documentation of styli and light pens -- Documentation	89
Table H.130 -- Correspondence with generic requirements on touch-sensitive screens -- Appropriateness	89
Table H.131 -- Correspondence with generic requirements on touch-sensitive screens -- Operability	89
Table H.132 -- Correspondence with generic requirements on touch-sensitive screens -- Controllability	90
Table H.133 -- Correspondence with generic requirements on touch-sensitive screens -- Biomechanical load	90
Table H.134 -- Functional properties of touch-sensitive screens -- Functional properties	91
Table H.135 -- Functional properties of touch-sensitive screens -- Mechanical properties	91
Table H.136 -- Other properties of touch-sensitive screens -- Electrical properties	91
Table H.137 -- Other properties of touch-sensitive screens -- Maintainability-related properties	92
Table H.138 -- Other properties of touch-sensitive screen -- Health- and safety-related properties	92
Table H.139 -- Other properties of touch-sensitive screens -- Interdependency with software	92
Table H.140 -- Other properties of touch-sensitive screens -- Interdependency with use environment	92
Table H.141 -- Other properties of touch-sensitive screen -- Mechanical properties	92
