

# DIN EN 13861:2012-01 (E)

## Safety of machinery - Guidance for the application of ergonomics standards in the design of machinery

---

<b>Contents</b>		<b>Page</b>
Foreword .....		3
Introduction .....		4
1 Scope .....		5
2 Normative references .....		5
3 Terms and definitions .....		5
4 Application of ergonomics standards in the design of machinery .....		6
4.1 Introduction .....		6
4.2 Process for guidance to the appropriate ergonomics standards .....		6
4.2.1 General .....		6
4.2.2 Step 1: Hazard analysis and risk estimation .....		6
4.2.3 Step 2: Investigation of applicability of standards .....		7
4.2.4 Step 3: Evaluation of the risks using relevant ergonomics standards .....		7
4.2.5 Step 4: Risk reduction using the various standards .....		8
4.2.6 Step 5: Verification .....		8
5 Information for use .....		10
Annex A (normative) Relation between hazards as described in EN ISO 12100 and applicable B-standards related to ergonomics .....		11
Annex B (informative) Checklist for listing the limits of the machinery (step 1) .....		21
B.1 General .....		21
B.2 External preconditions .....		22
B.2.1 User limits .....		22
B.2.2 Space limits .....		23
B.2.3 Time limits .....		23
B.2.4 Environmental conditions (of the intended work sites, NOT related to the machinery design) .....		23
B.3 Work tasks (man/machine interface) .....		23
B.3.1 Intended and expected use .....		23
B.3.2 Expected use of personal protective equipment .....		24
B.3.3 Foreseeable misuse in terms of ergonomics (EN ISO 12100:2010, 3.24) .....		24
Annex C (informative) Additional requirements for C-type standardization .....		25
C.1 General .....		25
C.2 To Clause 1 "Scope" .....		25
C.3 To 4.2.3, "Step 2: Investigation of applicability of standards" .....		25
C.4 To 4.2.4, "Step 3: Evaluation of the risks using relevant ergonomics standards" .....		25
C.5 To 4.2.5, "Step 4: Risk reduction using the various standards" .....		25
C.6 To 4.2.6, "Step 5: Verification" .....		25
C.7 Requirements for residual risks .....		26
Annex D (informative) List of ergonomics standards applicable to the design of machinery safety standards .....		27
Bibliography .....		44
