

DIN EN ISO 28803:2012-06 (E)

Ergonomics of the physical environment - Application of international standards to people with special requirements (ISO 28803:2012)

Contents	Page
Foreword	3
Introduction	4
1 Scope	5
2 Normative references	5
3 Terms and definitions	5
4 General factors requiring consideration when designing or evaluating environments for people with special requirements	6
5 Considerations related to design and evaluation of the thermal environment	7
5.1 Factors requiring special consideration for design and evaluation	7
5.2 Moderate thermal environments and people with special requirements	8
5.3 Hot environments and people with special requirements	9
5.4 Cold environments and people with special requirements	10
5.5 Supporting standards for evaluation of thermal environments	10
5.6 Thermal disabilities	11
6 Considerations related to design and evaluation of the acoustic environment	13
6.1 General factors requiring consideration when designing and evaluating environments for people with special requirements	13
6.2 ISO 7731, Ergonomics -- Danger signals for public and work areas -- Auditory danger signals	15
6.3 ISO 11429, Ergonomics -- System of auditory and visual danger and information signals	16
6.4 ISO 9355-2, Ergonomic requirements for the design of displays and control actuators -- Part 2: Displays	16
6.5 ISO 9921, Ergonomics -- Assessment of speech communication	16
6.6 IEC 60268-16, Sound system equipment -- Part 16: Objective rating of speech intelligibility by speech transmission index	17
7 Assessment of visual and lighting environments	17
7.1 General	17
7.2 Contrast sensitivity	18
7.3 ISO 8995, Lighting of indoor work places	18
7.4 Lighting for older people	18
8 Considerations related to air quality	18
9 Considerations related to assessment of other environmental components	19
9.1 General	19
9.2 Vibration environments	19
9.3 Interaction of environmental components	20
10 Environmental design and adaptive opportunity	20
Bibliography	22
