ISO 28803:2012-03 (E)

Ergonomics of the physical environment - Application of International Standards to people with special requirements

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Termsanddefinitions 1

4 General factors requiring consideration when designing or evaluating environments for people with special requirements 2

5 Considerations related to design and evaluation of the thermal environment 3
5.1 Factors requiring special consideration for design and evaluation 3
5.2 Moderate thermal environments and people with special requirements 4
5.3 Hot environments and people with special requirements 5
5.4 Cold environments and people with special requirements 6
5.5 Supporting standards for evaluation of thermal environments 6
5.6 Thermal disabilities 7

6 Considerations related to design and evaluation of the acoustic environment 9
6.1 General factors requiring consideration when designing and evaluating environments for people with special requirements 9
6.2 ISO 7731, Ergonomics -- Danger signals for public and work areas -- Auditory danger signals 11
6.3 ISO 11429, Ergonomics -- System of auditory and visual danger and information signals 12
6.4 ISO 9355-2, Ergonomic requirements for the design of displays and control actuators -- Part 2: Displays 12
6.5 ISO 9921, Ergonomics -- Assessment of speech communication 12
6.6 IEC 60268-16, Sound system equipment -- Part 16: Objective rating of speech intelligibility by speech transmission index 13

7 Assessment of visual and lighting environments 13
7.1 General 13
7.2 Contrast sensitivity 14
7.3 ISO 8995, Lighting of indoor work places 14
7.4 Lighting for older people 14

8 Considerations related to air quality 14

9 Considerations related to assessment of other environmental components 15
9.1 General 15
9.2 Vibration environments 15
9.3 Interaction of environmental components 16

10 Environmental design and adaptive opportunity 16
