

ISO 28803:2012-03 (E)

Ergonomics of the physical environment - Application of International Standards to people with special requirements

Contents		Page
Foreword		iv
Introduction		v
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	General factors requiring consideration when designing or evaluating environments for people with special requirements	2
5	Considerations related to design and evaluation of the thermal environment	3
5.1	Factors requiring special consideration for design and evaluation	3
5.2	Moderate thermal environments and people with special requirements	4
5.3	Hot environments and people with special requirements	5
5.4	Cold environments and people with special requirements	6
5.5	Supporting standards for evaluation of thermal environments	6
5.6	Thermal disabilities	7
6	Considerations related to design and evaluation of the acoustic environment	9
6.1	General factors requiring consideration when designing and evaluating environments for people with special requirements	9
6.2	ISO 7731, Ergonomics -- Danger signals for public and work areas -- Auditory danger signals	11
6.3	ISO 11429, Ergonomics -- System of auditory and visual danger and information signals ..	12
6.4	ISO 9355-2, Ergonomic requirements for the design of displays and control actuators -- Part 2: Displays	12
6.5	ISO 9921, Ergonomics -- Assessment of speech communication	12
6.6	IEC 60268-16, Sound system equipment -- Part 16: Objective rating of speech intelligibility by speech transmission index	13
7	Assessment of visual and lighting environments	13
7.1	General	13
7.2	Contrast sensitivity	14
7.3	ISO 8995, Lighting of indoor work places	14
7.4	Lighting for older people	14
8	Considerations related to air quality	14
9	Considerations related to assessment of other environmental components	15
9.1	General	15
9.2	Vibration environments	15
9.3	Interaction of environmental components	16
10	Environmental design and adaptive opportunity	16
