Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 2

4 Conformance 3
4.1 Applying the requirements 3
4.2 Applying the recommendations 3
4.3 Evaluation of products 3

5 General requirements 3
5.1 Requirements related to ICT 3
5.2 Requirements related to software 3
5.3 Requirements related to interoperability with assistive technologies 3
5.4 Avoidance of erroneous operations and support of easy operations 3
5.5 Functionality provided as hardware support 4
5.6 Using readable labels 5
5.7 Connection 5
5.8 Alternative to biometric-based user authentication 7
5.9 User comfort 7

6 Requirements for input 7
6.1 Controls 7
6.2 Keyboard 8
6.3 Touch screen 10

7 Requirements for output 10
7.1 Visual information 10
7.2 Auditory information 11

8 Requirements for data storage devices and removable drives 12
8.1 Insertion and removal of a media and change of a drive 12
8.2 Notification of media insertion 12

9 Requirements for user support 13
9.1 Product information 13
9.2 Disclosure of information to distribution channel 14
9.3 Customer support 14
9.4 Maintenance information 14

Annex A (informative) Sample procedure for assessing applicability and conformance 15
