DIN EN ISO 15535:2013-01 (E)

General requirements for establishing anthropometric databases (ISO 15535:2012)

Contents

Page

Foreword 3

Introduction 4

1 Scope 5

2 Normative references 5

3 Terms and definitions 5

4 Data collection design 6
4.1 General 6
4.2 Definitions, techniques and conditions of measurement 6
4.3 Sampling techniques 7

5 Data collection requirements 7
5.1 Basic demographic description of subjects 7
5.2 Detection and treatment of measurement errors 7
5.3 Instrument accuracy 7
5.4 Sample composition 7
5.5 Sample size 7
5.6 Data-storage system 8
5.7 Type of clothing 8
5.8 Measurer training and quality control 8

6 Database format 8

7 Database contents 9
7.1 Required background data 9
7.2 Recommended background data 9
7.3 Anthropometric data 9
7.4 Complementary data 9

8 Anthropometric data sheets 9

9 Statistical processing 9

Annex A (normative) Method for estimating the number of subjects needed on a sample 11

Annex B (normative) Anthropometric data sheet 14

Annex C (informative) Example of anthropometric data sheet 15

Annex D (informative) Method of calculating decimal-notation date and age 17

Annex E (normative) Age stratification at specified growth period 20

Annex F (normative) Procedure for preparing data and statistics 21

Annex G (informative) Recommended scientific and technical objectives for setting up internationally compatible databases 23

Annex H (informative) Application of measurements 24

Annex I (informative) Sample database format 25

Bibliography 26
