

DIN EN ISO 15535:2013-01 (E)

General requirements for establishing anthropometric databases (ISO 15535:2012)

Contents		Page
Foreword		3
Introduction		4
1	Scope	5
2	Normative references	5
3	Terms and definitions	5
4	Data collection design	6
4.1	General	6
4.2	Definitions, techniques and conditions of measurement	6
4.3	Sampling techniques	7
5	Data collection requirements	7
5.1	Basic demographic description of subjects	7
5.2	Detection and treatment of measurement errors	7
5.3	Instrument accuracy	7
5.4	Sample composition	7
5.5	Sample size	7
5.6	Data-storage system	8
5.7	Type of clothing	8
5.8	Measurer training and quality control	8
6	Database format	8
7	Database contents	9
7.1	Required background data	9
7.2	Recommended background data	9
7.3	Anthropometric data	9
7.4	Complementary data	9
8	Anthropometric data sheets	9
9	Statistical processing	9
Annex A (normative) Method for estimating the number of subjects needed on a sample		11
Annex B (normative) Anthropometric data sheet		14
Annex C (informative) Example of anthropometric data sheet		15
Annex D (informative) Method of calculating decimal-notation date and age		17
Annex E (normative) Age stratification at specified growth period		20
Annex F (normative) Procedure for preparing data and statistics		21
Annex G (informative) Recommended scientific and technical objectives for setting up internationally compatible databases		23

Annex H (informative) Application of measurements	24
Annex I (informative) Sample database format	25
Bibliography	26
