

DIN EN 547-1:1997-02 (E)

Safety of machinery - Human body measurements - Part 1: Principles for determining the dimensions required for openings for whole body access into machinery

Contents

	Page		Page
0 Introduction	3	4.4 Manhole through which rapid active movements needs to be possible	9
1 Scope	3	4.5 Opening for entry in kneeling posture	9
2 Normative references	3	Annex A (normative) Application of the measurements in practice	10
3 General requirements	4	Annex B (informative) Notations for dimensions and anthropometric body measurements	13
4 Passage openings	5	Annex C (informative) Bibliography	14
4.1 Opening for horizontal forward movement in upright posture	6	Annex ZA (informative) Relationship between this European Standard and the EU Directive for Machinery	15
4.2 Opening for horizontal sideways movement over short distances in upright posture	7		
4.3 Vertical movement through a duct, using a ladder	8
