

DIN EN 547-2:1997-02 (E)

Safety of machinery - Human body measurements - Part 2: Principles for determining the dimensions required for access openings

Contents

	Page		Page
0 Introduction	3	4.8 Access opening for flat hand to wrist, including thumb	10
1 Scope	3	4.9 Access opening for flat hand (four fingers) to base of thumb	10
2 Normative references	3	4.10 Access opening for index finger, restricted by the other fingers	11
3 General requirements	4	4.11 Access opening for one foot to ankle bone	11
4 Access openings	5	4.12 Access opening for forefoot operated control actuators	11
4.1 Access opening for the upper body and arms ...	6	Annex A (normative) Application of the measurements in practice	12
4.2 Access opening for the head as far as the shoulders for inspection tasks	7	Annex B (informative) Position of access openings ..	16
4.3 Access opening for both arms (either forward or downward)	7	Annex C (informative) Notations for dimensions and anthropometric body measurements	24
4.4 Access opening for both lower arms up to elbow (either forward or downward)	8	Annex D (informative) Bibliography	26
4.5 Opening for access to the side for one arm up to shoulder joint	9	Annex ZA (informative) Relationship between this European Standard and the EU Directive for Machinery	26
4.6 Access opening for one lower arm up to the elbow	9		
4.7 Access opening for fist	9
