Ergonomic design for the safety of machinery - Part 1: Principles for determining the dimensions required for openings for whole-body access into machinery

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 General requirements	2
4 Passage openings	2
4.1 Opening for horizontal forward movement in upright posture	3
4.2 Opening for horizontal sideways movement over short distances in upright posture	4
4.3 Vertical movement through a duct, using a ladder	5
4.4 Manhole through which rapid active movement needs to be possible	6
4.5 Opening for entry in kneeling posture	6
Annex A (normative) Application of the measurements in practice	7
Annex B (informative) Symbols for dimensions and anthropometric body measurements	10
Bibliography	12
