## Dynamic signs in physical environments - Part 1: General requirements

---

<b>Contents</b>		<b>Page</b>
Foreword .....		iv
Introduction .....		v
1	Scope .....	1
2	Normative references .....	1
3	Terms and definitions .....	1
4	Dynamic signs .....	2
5	Visibility .....	4
5.1	General .....	4
5.2	Graphical symbols and pictorial symbols to be displayed .....	4
5.3	Characters to be displayed .....	4
5.3.1	Font style .....	4
5.3.2	Font size .....	4
5.3.3	Presentation content and context .....	5
5.3.4	Number of characters .....	5
5.4	Types of dynamic display methods and their requirements .....	5
5.4.1	Types of dynamic presentation incorporating movement .....	5
5.4.2	Types of temporal variation in brightness, chromaticity or shape .....	5
5.5	Visual requirements for dynamic signs to be considered .....	5
5.5.1	Information volume .....	5
5.5.2	Size .....	5
5.5.3	Colour .....	5
5.5.4	Contrast and luminance .....	5
5.5.5	Lead time, presentation time and velocity .....	5
5.5.6	Display location .....	6
5.5.7	Discomfort and annoyance from signs .....	6
5.5.8	Requirements for combinations of symbols and characters .....	6
6	Visual image safety .....	6
6.1	Considerations for avoiding photosensitive seizures .....	6
6.2	Considerations for avoiding visually induced motion sickness .....	6
6.3	Considerations for avoiding visually induced balance disorder .....	6
6.4	Considerations for restricting misuse .....	6
7	Accessibility .....	6
7.1	Consideration of diverse users and diverse context of use .....	6
7.2	Use of multiple languages .....	7
Annex A (informative)	Examples of dynamic sign use .....	8
Bibliography .....		11
