Validation protocol for walking speed as extracted from various sensor systems that measure human body motion for the healthcare sector

Contents	Page
Foreword	iv
Introduction	v
1 Scope	1
2 Normative references	1
3 Terms and definitions	1
4 Validation protocol of walking speed as provided by various sensor systems	1
4.1 General.....	1
4.2 Qualifications of the measurer.....	1
4.3 Sample size and participant selection for the validation study.....	2
4.4 Validation study procedure.....	2
4.4.1 Establishing walking distance.....	2
4.4.2 Measurement of walking speed.....	2
4.4.3 Comparison of measured walking speeds.....	3
5 Validation study reporting	3
Annex A (informative) Template to report the results of a validation study	4
Annex B (informative) Sample report of the results of a validation study	5
Bibliography	7
