Ageing societies - Accessibility and usability considerations for home healthcare products, related services and environments

| Contents | | Page |
|---|--|------|
| Foreword | | iv |
| Introduction | | v |
| 1 Scope | | 1 |
| 2 Normative references | | 1 |
| 3 Terms and definitions | | 1 |
| 4 General considerations for increasing accessibility and usability | | 2 |
| 4.1 Safety and security | | 2 |
| 4.2 Cleanliness, disinfection and sterilization | | 3 |
| 4.3 Independence and autonomy of care recipients | | 3 |
| 4.4 Accessibility in general | | 3 |
| 5 Considerations on home healthcare products for increasing accessibility and usability | | 4 |
| 5.1 Operation | | 4 |
| 5.1.1 General considerations | | 4 |
| 5.1.2 Specific considerations | | 5 |
| 5.2 Information and marking | | 6 |
| 5.2.1 General considerations | | 6 |
| 5.2.2 Specific considerations | | 7 |
| 6 Considerations on services related to use of home healthcare products for increasing accessibility and usability | | 10 |
| 6.1 General considerations | | 10 |
| 6.2 Specific considerations | | 11 |
| 7 Considerations on environments for use of home healthcare products for increasing accessibility and usability | | 12 |
| 7.1 General considerations | | 12 |
| 7.2 Specific considerations | | 12 |
| 7.2.1 Lighting environment | | 12 |
| 7.2.2 Sound environment | | 13 |
| 7.2.3 Thermal and air quality environment | | 13 |
| 7.2.4 Others | | 13 |
| Annex A (informative) Major home healthcare products and users | | 15 |
| Annex B (informative) Examples of home healthcare products | | 18 |
| Bibliography | | 24 |
