

ISO 7726:2025-10 (E)

Ergonomics of the thermal environment - Instruments for measuring and monitoring physical quantities

Contents		Page
Foreword		v
Introduction		vi
1	Scope	1
2	Normative references	1
3	Terms and definitions	1
4	Symbols and abbreviation	1
5	General	2
5.1	Specifications and methods	2
5.2	The heat exchanges between human body system and its environment	2
6	Physical quantities characterizing heat exchanges	3
6.1	General	3
6.2	Basic physical quantities	3
6.2.1	Quantities	3
6.2.2	Air temperature	3
6.2.3	Radiation	3
6.2.4	Plane radiant temperature	4
6.2.5	Dew point temperature	4
6.2.6	Relative humidity	4
6.2.7	Surface temperature	4
6.2.8	Air velocity	4
6.2.9	Globe temperature	4
6.2.10	Psychrometric wet-bulb temperature	4
6.2.11	Natural wet-bulb temperature	4
6.3	Derived physical quantities	5
6.3.1	General	5
6.3.2	Mean radiant temperature	5
6.3.3	Radiant temperature asymmetry	5
6.3.4	Operative temperature	5
6.3.5	Water vapour partial pressure	6
6.3.6	Humidity ratio	6
6.3.7	Turbulence intensity	6
7	The characteristics of physical quantity measuring instruments	6
7.1	General	6
7.2	Characteristics of instruments for measuring the basic quantities	6
7.3	Characteristics of integrating types of measuring instruments	8
8	Specifications relating to measuring methods	9
8.1	General	9
8.2	Specifications relating to variations in the physical quantities within the space surrounding the subject	9
8.3	Specifications relating to the variations in the physical quantities with time	10
9	Specifications relating to monitoring methods	11

10	Measurement uncertainty	11
11	Specifications related to the processing of measurement results	11
11.1	Spatial maps of measured data	12
	Annex A (informative) Measurement of air temperature	13
	Annex B (informative) Measurement and calculation of the mean radiant temperature	15
	Annex C (informative) Measurement of plane radiant temperature	26
	Annex D (informative) Measurement of the absolute humidity of the air	32
	Annex E (informative) Measurement of air velocity	39
	Annex F (informative) Measurement of surface temperature	42
	Annex G (informative) Measurement of operative temperature	44
	Annex H (informative) Measurement of the natural wet-bulb temperature	46
	Bibliography	48
