DIN EN ISO 14915-1:2003-04 (E)

Software ergonomics for multimedia user interfaces - Part 1: Design principles and framework (ISO 14915-1:2002)

Contents

Page

1 Scope ... 5
2 Normative references ... 5
3 Terms and definitions ... 6
4 Application of ISO 14915 ... 6
4.1 Intended user groups ... 6
4.2 Applying the recommendations ... 7
4.3 Reporting conformance to parts of ISO 14915 ... 7
5 Design goals and principles ... 7
5.1 Design goals ... 7
5.2 Multimedia design principles ... 7
5.2.1 General ... 7
5.2.2 Dialogue principles ... 8
5.2.3 Multimedia specific design principles ... 8
5.2.4 Suitability for the communication goal ... 9
5.2.5 Suitability for perception and understanding ... 9
5.2.6 Suitability for exploration ... 11
5.2.7 Suitability for engagement ... 12
6 Design considerations ... 12
6.1 General ... 12
6.2 Content design ... 13
6.2.1 General ... 13
6.2.2 Analysing the communication goal ... 13
6.2.3 Structuring content ... 13
6.3 Interaction design ... 13
6.3.1 General ... 13
6.3.2 Navigation ... 13
6.3.3 Media control and interaction ... 14
6.3.4 Dialogue interaction ... 14
6.4 Media design ... 14
7 Design and development process ... 14
7.1 General ... 14
7.2 Analysis ... 15
7.3 Conceptual design ... 15
7.4 Content, interaction and media design ... 15
7.5 Prototyping ... 15
7.6 Evaluation ... 15
