Ergonomics of the thermal environment - Determination of metabolic rate

Contents		Page
Foreword		iv
1	Scope	1
2	Normative references	1
3	Principle and accuracy	1
4	Level 1, screening	3
4.1	Table for the estimation of metabolic rate by occupation	3
4.2	Classification of metabolic rate by categories	3
5	Level 2, observation	3
5.1	Estimation of metabolic rate by task requirements	3
5.2	Metabolic rate for typical activities	4
5.3	Metabolic rate for a work cycle	4
5.4	Influence of the length of rest periods and work periods	5
5.5	Obtaining values by interpolation	6
5.6	Requirements for the application of metabolic-rate tables	6
6	Level 3, analysis	6
6.1	Estimation of metabolic rate using heart rate	6
6.2	Relationship between heart rate and metabolic rate	7
7	Level 4, expertise	8
7.1	Determination of metabolic rate by measurement of oxygen consumption rate	8
7.2	The doubly labelled water method for long-term measurements	14
7.3	Direct calorimetry -- Principle	14
Annex A (informative) Evaluation of the metabolic rate at level 1, screening		15
Annex B (informative) Evaluation of the metabolic rate at level 2, observation		17
Annex C (informative) Evaluation of the metabolic rate at level 3, analysis		20
Annex D (informative) Evaluation of the metabolic rate at level 4, expertise -- Examples of the calculation of metabolic rate based on measured data		21
