DIN 6930-2:2011-10 (E)

Stamped steel parts - Part 2: General tolerances

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 General tolerances 4
3.1 General 4
3.2 General tolerances for flat stampings 5
3.2.1 General 5
3.2.2 General tolerances for linear dimensions of flat stampings 5
3.2.3 General tolerances for radii of curvature of flat stampings 7
3.2.4 General tolerances for angular dimensions of flat stampings 7
3.2.5 General tolerances on coaxiality and symmetry of flat stampings 8
3.3 General tolerances for stampings made by forming 9
3.3.1 General 9
3.3.2 General tolerances for linear dimensions of stampings manufactured by forming 10
3.3.3 General tolerances for radii of curvature of stampings manufactured by forming 12
3.3.4 General tolerances for angular dimensions of stampings manufactured by forming 13
3.3.5 General tolerances on coaxiality and symmetry of stampings manufactured by forming 13

4 Indication on drawings 14

5 General tolerances on existing drawings 14

6 Special cases 15
6.1 General 15
6.2 Straightness tolerance for strip and sections 15
6.3 Twisting of strip and sections 15

Annex A (informative) Explanatory notes 17
