DIN 6932:2011-10 (E)

Design rules for stamped steel parts

Contents

Page

Foreword 3

1 Scope 4

2 Normative references 4

3 General rules 4

4 Design rules 4
4.1 General 4
4.2 Design rules for cut parts 4
4.2.1 Basic principles 4
4.2.2 Shape of pierced holes 5
4.2.3 Hole diameter 5
4.2.4 Notching 6
4.2.5 Piercing and notching on one side 6
4.2.6 Curvatures 6
4.2.7 Curvatures on strip lengths 6
4.2.8 Distances 7
4.2.9 Oblique cutting 7
4.2.10 Positioning guard 8
4.3 Design rules for bent parts 8
4.3.1 Basic principles 8
4.3.2 Bending radii 8
4.3.3 Internal radius/External radius 8
4.3.4 Preparation for bending 9
4.3.5 Minimum leg length 10
4.3.6 Minimum distance from the bending axis 11
4.3.7 Relief holes 11
4.4 Design rules for deep-drawn parts 11
4.4.1 General 11
4.4.2 Earing 11
4.4.3 Radii of curvature 12
4.4.4 h/d ratio 12
4.4.5 Buckling/Wrinkling 13
4.4.6 Bottom flatness 13
4.4.7 Material elongation/Material thickening 14
4.4.8 Box-shaped deep-drawn parts 14
4.4.9 Plunging 15

5 Dimensioning 15

Annex A (informative) Explanatory notes 17
