

DIN EN 12254:2008-04 (E)

Screens for laser working places - Safety requirements and testing (includes Amendment A2:2008)

Contents		Page
Foreword		3
1	Scope	4
2	Normative references	4
3	Definitions	5
4	Requirements	5
4.1	Spectral transmittance	5
4.2	Stability to laser radiation	5
4.3	Stability to UV radiation	5
4.4	Stability at elevated temperature	5
4.5	Mechanical strength	6
4.6	Resistance to ignition	6
5	Testing	6
5.1	Spectral transmittance	6
5.2	Stability to laser radiation	6
5.3	Stability to UV radiation	9
5.4	Stability at elevated temperature	9
5.5	Mechanical strength	9
5.5.1	Flexible screens	9
5.5.2	Inflexible screens	10
5.5.3	!!!!Resistance to ignition""""	10
6	Marking	11
7	Information supplied by the manufacturer	11
Annex A (informative) Principles		13
A.1	Limiting values	13
A.2	Time base used to calculate the MPE values	13
A.3	Stability to laser radiation	13
Annex B (informative) Selection of screens for laser working places		15
B.1	General	15
B.2	Pulsed lasers	15
B.3	!!!!Caution for users of laser safety screens	17
Annex ZA (informative) !!!!Relationship between this European Standard and the Essential Requirements of EU Directive 98/37/EC		18
Annex ZB (informative) ####Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC		19
