ISO 22810:2010-08 (E)

Horology - Water-resistant watches

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Terms and definitions 1

3 Requirements 1
3.1 General 1
3.2 Water resistance to overpressure 1
3.3 Water resistance at shallow depth 2
3.4 Water resistance when a strain is placed on the operative components 2
3.5 Water resistance on exposure to thermal shocks 2

4 Test methods 2
4.1 Test conditions 2
4.2 Condensation test 2
4.3 Water resistance tests by immersion 3
4.4 Water resistance test by air overpressure 4

5 Marking 4

Annex A (informative) Precautions in use and notions of physics 5
