

# DIN EN ISO 5840-3:2013-06 (E)

## Cardiovascular implants - Cardiac valve prostheses - Part 3: Heart valve substitutes implanted by transcatheter techniques (ISO 5840-3:2013)

---

<b>Contents</b>	<b>Page</b>
Foreword .....	3
Introduction .....	4
1 Scope .....	5
2 Normative references .....	5
3 Terms and definitions .....	6
4 Abbreviations .....	14
5 Fundamental requirements .....	14
6 Device description .....	14
6.1 Intended use .....	14
6.2 Design inputs .....	14
6.3 Design outputs .....	17
6.4 Design transfer (manufacturing verification/validation) .....	17
6.5 Risk management .....	18
7 Design verification testing and analysis/design validation .....	18
7.1 General requirements .....	18
7.2 In vitro assessment .....	18
7.3 Preclinical in vivo evaluation .....	27
7.4 Clinical investigations .....	30
Annex A (informative) Rationale for the provisions of this part of ISO 5840 .....	35
Annex B (informative) Examples of transcatheter heart valve substitutes, components and delivery systems .....	38
Annex C (normative) Packaging .....	44
Annex D (normative) Product labels, instructions for use and training .....	45
Annex E (normative) Sterilization .....	48
Annex F (informative) Valve description .....	49
Annex G (informative) Transcatheter heart valve substitute hazards, associated failure modes and evaluation methods .....	51
Annex H (informative) In vitro test guidelines for paediatric devices .....	55
Annex I (informative) Statistical procedures when using performance criteria .....	59
Annex J (informative) Examples and definitions of some physical and material properties of transcatheter heart valve substitutes and their components .....	60

<b>Annex K (informative) Examples of standards applicable to testing of materials and components of transcatheter heart valve substitutes .....</b>	<b>73</b>
<b>Annex L (informative) Raw and post-conditioning mechanical properties for support structure materials .....</b>	<b>79</b>
<b>Annex M (informative) Corrosion assessment .....</b>	<b>81</b>
<b>Annex N (informative) Guidelines for verification of hydrodynamic performance .....</b>	<b>84</b>
<b>Annex O (informative) Durability testing .....</b>	<b>88</b>
<b>Annex P (informative) Fatigue assessment .....</b>	<b>90</b>
<b>Annex Q (informative) Preclinical in vivo evaluation .....</b>	<b>96</b>
<b>Annex R (normative) Adverse event classification during clinical investigation .....</b>	<b>99</b>
<b>Annex S (informative) Echocardiographic protocol .....</b>	<b>104</b>
<b>Bibliography .....</b>	<b>107</b>
<b>Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC .....</b>	<b>109</b>
