Foreword ... 3

Introduction ... 4

1 Scope ... 5

2 Normative references ... 5

3 Terms and definitions ... 6

4 General requirements ... 8
4.1 Classification ... 8
4.2 Size ... 8
4.3 Intended clinical use designation ... 9

5 Intended performance ... 9

6 Design attributes ... 9
6.1 General ... 9
6.2 Delivery system and stent system ... 10
6.3 Implant ... 10

7 Materials ... 11

8 Design evaluation ... 11
8.1 General ... 11
8.2 Sampling ... 12
8.3 Conditioning of test samples ... 12
8.4 Reporting ... 12
8.5 Delivery system and stent system ... 13
8.6 Stent ... 19
8.7 Preclinical *in vivo* evaluation ... 27
8.8 Clinical evaluation ... 31

9 Post-market surveillance ... 34

10 Manufacturing ... 34

11 Sterilization ... 34
11.1 Products supplied sterile ... 34
11.2 Products supplied non-sterile ... 35
11.3 Sterilization residuals ... 35

12 Packaging ... 35
12.1 Protection from damage in storage and transport ... 35
12.2 Marking ... 35
12.3 Information supplied by the manufacturer ... 36

Annex A (informative) **Attributes of endovascular devices — Vascular stents — Technical and clinical consideration** **38**

Annex B (informative) **Bench and analytical tests** **45**

Annex C (informative) **Definitions of reportable clinical events** **49**

Annex D (informative) **Test methods** **52**

Annex E (informative) **Supplement to fatigue durability test analytical approach** **89**

Annex ZA (informative) **Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC** **92**

Bibliography **96**
