

DIN EN ISO 5840-1:2015-12 (E)

Cardiovascular implants - Cardiac valve prostheses - Part 1: General requirements (ISO 5840-1:2015)

Contents	Page
European foreword	3
Foreword	4
Introduction	5
1 Scope	6
2 Normative references	6
3 Terms and definitions	7
4 Abbreviations	16
5 Fundamental requirements	17
6 Device description	17
6.1 Intended use	17
6.2 Design inputs	17
6.2.1 Operational specifications	17
6.2.2 Performance specifications	17
6.2.3 Implant procedure	17
6.2.4 Packaging, labelling, and sterilization	18
6.3 Design outputs	18
6.4 Design transfer (manufacturing verification/validation)	19
6.5 Risk management	19
7 Design verification, testing and analysis/design validation	20
7.1 General requirements	20
7.2 In vitro assessment	20
7.3 Preclinical in vivo evaluation	20
7.4 Clinical investigations	20
Annex A (informative) Rationale for the provisions of this part of ISO 5840	21
Annex B (normative) Packaging	24
Annex C (normative) Product labels, instructions for use, and training	25
Annex D (normative) Sterilization	28
Annex E (informative) In vitro test guidelines for paediatric devices	29
Annex F (informative) Statistical procedures when using in vitro performance criteria	33
Annex G (informative) Examples and definitions of some physical and material properties of heart valve systems	34
Annex H (informative) Examples of standards applicable to testing of materials and components of heart valve systems	45

Annex I (informative) Raw and post-conditioning mechanical properties for support structure materials	51
Annex J (informative) Corrosion assessment	53
Annex K (informative) Echocardiographic protocol	56
Bibliography	60
Annex ZA (informative) Relationship between this European Standard and the Essential Requirements of EU Directive 93/42/EEC on medical devices	59
