

# ISO 3764:2016-03 (E)

## Timekeeping instruments - Movements - Types, dimensions and nomenclature

---

| <b>Contents</b> |   | <b>Page</b> |
|-----------------|---|-------------|
| Foreword .....  |   | iv          |
| <b>1</b>        | <b>Scope .....</b>  | <b>1</b>    |
| <b>2</b>        | <b>Normative references .....</b>                           | <b>1</b>    |
| <b>3</b>        | <b>Terms and definitions .....</b>                          | <b>1</b>    |
| 3.1             | Diameters of movements .....                                | 1           |
| 3.2             | Thickness of movements .....                                | 2           |
| 3.2.1           | Mechanical type .....                                       | 2           |
| 3.2.2           | Electromechanical type .....                                | 2           |
| <b>4</b>        | <b>Nomenclature of movements and their dimensions .....</b> | <b>2</b>    |
| 4.1             | Type 1: Round movement .....                                | 2           |
| 4.2             | Type 2: Shaped round movement .....                         | 4           |
| 4.3             | Type 3: Round movement with double cutting .....            | 5           |
| 4.4             | Type 4: 5 1/2 movement .....                                | 6           |
| 4.5             | Type 5: 6 3/4 x 8 movement .....                            | 7           |
| <b>5</b>        | <b>Nomenclature for thickness of movements .....</b>        | <b>8</b>    |
| 5.1             | Mechanical movements .....                                  | 8           |
| 5.2             | Electromechanical movements with analogue display .....     | 8           |
