ISO/TR 21477:2017-08 (E)

Optics and photonics - Preparation of drawings for optical elements and systems - Surface imperfection specification and measurement systems

Contents

Page

Foreword iv

Introduction v

1 Scope 1

2 Normative references 1

3 Terms and definitions 1

4 General discussion of surface imperfection specification and measurement systems 1

5 Dimensional system of surface imperfection specifications 2
5.1 General 2
5.2 Origin of the dimensional system 2
5.3 Dimensional comparison standard 2

6 Visibility system of surface imperfection specifications 2
6.1 General 2
6.2 Origin of the visibility system 3
6.3 Brightness comparison standard 3

7 Comparison of visibility and dimensional specifications 3
